

OUT-OF-BOX INTEGRATION SOLUTION

mediavalet™  Jira

STREAMLINE CREATIVE WORKFLOW

No need to manually download and upload assets, ensuring quick & seamless inter-department utilization

MAXIMIZE PRODUCTIVITY

Workflow is simplified by minimizing the different platforms your team works in

ONE CENTRALIZED LOCATION

Tasking, creation, communication, approvals, and DAM uploading is centralized for visibility & management

TRIGGER

Attach assets to "Issue", once finalized & approved, attach tag "To MediaValet" and mark "Complete"

ACTION

All files and assets attached to "Issue" will be sent to *Incoming Jira* MediaValet folder

OUTCOME

Assets Now Available in MediaValet Incoming Assets Category Folder

UTILIZATION

All asset creation, communication, approval, and DAM uploading is centralized!
